**Monthly Printing Tip**

Make sure when printing on your Ink Jet printer at home that your paper is secure using the guides. If the paper is not secure, it can result in the printer printing scew, and therefore you have to print it again. This wastes paper and ink.

**Monthly Photography Tip**

*Move it from the middle*

Bring your picture to life simply by placing your subject off-centre.

Imagine a tic-tac-toe grid in your viewfinder. Now place your subject at one of the intersections of lines.

Since most cameras focus on whatever's in the middle, remember to lock the focus on your subject before re-framing the shot.

**2012 Deskpad Calendars**

We still have some deskpad calendars to give away at the shop. Please pop in and take some calendars for you and for your business, it's FREE!! A deskpad calendar is very handy to have, so spread the word!

**January Competition Winner**

Congratulations to **Natalie Hoffmeister!!**  
You are the lucky winner of a R300 voucher to be used at Digi Press!!

For all those who did not win, thank you for entering, but don't be discouraged, maybe you are the next winner! Just keep entering, it's so quick and easy!
