GolfRSA Seeking clarity on golf's position
Following President Ramaphosa’s speech on Sunday night, 24 May 2020, Golf RSA – on behalf of the delegation representing the golf industry – is waiting for the Level 3 Lockdown Regulations to be gazetted before making any comment.

Meanwhile, we are urgently seeking clarity on golf’s position from government.

Golf is meant to be a journey shared. In fact, well over 50% of golfers say that “fun with friends” is MUCH more important than being super competitive. Golf is a ‘human’ pastime. This year threatened our humanity. So we want to put more friendship, more social, back into golf while encouraging you to reach new heights TOGETHER.

We’re looking for between 6 – 12 golfers to start a shared journey. From the 80s into the ’70s on your scorecard. We want you to be the master of many golfing skills.

We want you to make new friendships forged by a common goal and grown by fun experience. We want you to encourage and nurture others on the pathway, while being humble enough to be nurtured and encouraged yourself.

This is going to be fun
At the end of this journey, you’ll have new friends, new playing partners, and a new feeling for the game. This will change everything for you. This will make 2020 a crazy good year, when until now it has only seemed crazy. Talk to us about this plan.
Keep moving.
Get into better swing positions

Being home doesn’t mean you can’t work on your golf game. Your physical conditioning is just as important as technique and course management. Improving your mobility from home means that when you’re back on the course, you can hit the ground running.

To get into position at the top of your backswing as well as through impact and into your finish, your shoulders have to externally rotate. If your shoulder mobility is limited, you’ll struggle to consistently swing on plane. It also puts a lot of strain on your elbow through impact and over time can lead to “tennis elbow”.
Here are several exercises that can help to improve your shoulder mobility. And all you’ll need to do them is a few square feet of space.
